

WORKSHOP

Stephan Hausner

Health and Illness

February 6-8, 2019

Middelfart, Denmark

With an extraordinary depth and connection Stephan Hausner facilitates systemic constellations of primarily family systems to free and heal dynamics creating sickness and health issues in our lives. His work opens a whole new understanding of how connected illness and health are through generations and life events.

This workshop offers the opportunity to place personal issues as well as to learn from Stephan's work through

reflections and questions. The atmosphere will be confidential and open for the potential transformative steps.

I am touched and proud to welcome Stephan to Denmark. Being a student of Stephan's work, the impact of his work is quite evident for my life professionally as well as private.

Warmly
Annette Thiesen - PRAXICA
